

## Elevate Your Payroll and HR Beyond GP Payroll with Greenshades

Maximize payroll, HR, and tax efficiency with Greenshades, a cloud-based solution that seamlessly integrates with Dynamics GP. While Dynamics GP Payroll remains a reliable on-premises option, Greenshades offers enhanced flexibility, automated updates, and modern cloud capabilities—making it the future-proof choice for growing businesses.

	<b>Greenshades</b>	<b>GP Payroll</b>
<b>Payroll</b>	Payroll Processing with same-day availability	Lengthy Payroll Processing Times, Occasionally Spanning Overnight

<b>HR</b>	Electronic Onboarding	Support from Outside Solutions like Greenshades
	ACA Compliance - Dashboard and Electronic Filing available	Does not support ACA electronic filing, starting 2023. Microsoft recommends Greenshades or other additional support

# The Greenshades Difference

## Stay Ahead and Experience Seamless Growth with Your Trusted GP ERP and Greenshades

By switching to Greenshades, you gain in-house flexibility while enhancing your payroll with a cloud-based solution that features automation and built-in compliance, providing you with the tools to adapt to the evolving complexities of the modern business landscape.

## Key Advantages of Greenshades Over GP Payroll:

**Cloud-Based Solution:** Greenshades' cloud platform integrates with any ERP or business system via open API.

**Flexibility:** Scale with Greenshades' configurable solutions, adapt to evolving needs and support unlimited EINs at no extra cost.

**Built-in Compliance:** Automatically stay compliant with proactive updates, adhering to federal, state, and local regulations without manual effort.

**Comprehensive Solution:** Unify payroll, HR, and tax operations in one solution, eliminating the need for extra software or workarounds.

## Future Proof Your Payroll

Greenshades provides the flexibility to integrate with your Dynamics GP system today and seamlessly transition to future ERP platforms when ready. Unlike GP payroll, Greenshades connects with Dynamics BC, Sage Intacct, Acumatica, and—thanks to an open API—can link your payroll data to nearly any ERP solution. By running payroll outside your ERP, you gain the freedom to adapt without overhauling all your operations at once, ensuring a smooth and future-ready transition.

## Support Beyond Payroll

Greenshades goes beyond payroll by managing HR processes, tax and year-end filings, and time and attendance, providing a seamless experience alongside GP.

- **Human Resources:** Manage the entire employment cycle, from onboarding to offboarding, in one unified solution.
- **Benefit Admin:** Handle open enrollment, benefits management, and qualifying life events in real time.
- **Time & Attendance:** Utilize Greenshades' efficient time and attendance solution for precise labor tracking.
- **Tax & Compliance:** Simplify the creation, management, and filing of year-end forms like W-2s and 1099s, along with payroll tax and information returns.

Ready to future-proof your payroll, HR, and tax operations? Contact us for a personalized demonstration to see how Greenshades can work together with your Dynamics GP ERP to maximize efficiency.
